PROFESSIONAL PROFILE

Full Stack Developer with 1 year and 7 months of continuous professional experience on a production project, working primarily with Java, Spring Boot and Angular. Experience delivering end-to-end features, integrating REST APIs, working with Oracle databases using SQL, and writing unit tests with Jest and JUnit 5. After joining Inetum as an intern, I was hired as Software Engineer 2 to continue working on the same production project. Experience improving code maintainability, including refactoring and modularizing an Angular component from more than 1,000 lines to approximately 80 lines.

PROFESSIONAL EXPERIENCE

INETUM — FranceAgriMer Project

Alicante, Spain | October 2024 – April 2026

Software Engineer 2 | April 2025 – April 2026 **Full Stack Developer Intern** | October 2024 – March 2025

- Developed end-to-end features for a production application in the French agricultural sector, working on business logic with Java and Spring Boot and on the user interface with Angular 17.
- Refactored and modularized an Angular component from more than 1,000 lines to approximately 80 lines, improving maintainability and making it easier to develop new features.
- Integrated REST APIs and worked with Oracle data using SQL, contributing to communication between frontend and backend.
- Implemented and maintained unit tests with Jest and JUnit 5 to validate features and reduce the risk of regressions.
- Used Git for version control and Liquibase for database schema changes while collaborating in an Agile Scrum team.

Technologies: Java, Spring Boot, Angular 17, TypeScript, SQL, Oracle, REST APIs, Liquibase, Jest, JUnit 5, Git, HTML5, CSS3, SASS, XML.

TECHNICAL SKILLS

BACKEND	Java · Spring Boot · REST APIs
FRONTEND	Angular 17 · TypeScript · JavaScript · HTML5 · CSS3 · SASS
